

FOR IMMEDIATE RELEASE

Cypress Communications to Showcase Cloud Communications at LegalTech 2010

Cypress Communications will demonstrate its hosted VoIP, cloud-based unified communications and fixed mobile convergence services to law firm attendees at booth #1301.

Atlanta – January 26, 2010 – Cypress Communications® will be exhibiting at LegalTech® New York 2010 and demonstrating its newest IP communication solutions. Featuring the C4 IP® cloud-based unified communications solution, C3 IP™ hosted VoIP solution, C4 Office™ hosted Microsoft® OCS solution and fixed-mobile convergence functionality, Cypress' booth will be the premier place for legal professionals to learn about the features and benefits of hosted IP and cloud-based communications.

"With their productivity-enhancing features, inherent disaster recovery and cost-cutting hosted delivery models, Cypress' solutions have been well-received by law firms of all sizes" said Frank Grillo, executive vice president of marketing at Cypress Communications. "No matter how big or small a law firm may be, Cypress offers a customizable, scalable solution that can provide firms with advanced communications and collaboration abilities while lowering their total telecommunications spend, and we look forward to showcasing these products at LegalTech in New York."

Among the products Cypress will demonstrate at LegalTech are:

- **C4 IP®** – Named for its ability to help small-to-medium enterprises (SMEs) connect, communicate, collaborate and continue®, C4 IP is a hosted VoIP and hosted unified communications solution that is managed from Cypress' private network cloud to the phone on each desk. It comes complete with voice and data connectivity, IP phones, soft phones, unified messaging and an array of advanced functionality such as chat, presence, file and desktop sharing, desktop video as well as audio, video and Web conferencing.
- **C4 Office™** – Available as a fully hosted or hybrid solution, Cypress' C4 Office makes it easy for SMEs to take advantage of Microsoft® OCS. C4 Office goes beyond typical VoIP offerings by delivering reliable IP communications that are integrated with Microsoft® Exchange, SharePoint and Office applications. C4 Office is delivered via Cypress' robust national IP network that offers unparalleled business continuity and guaranteed quality of service.
- **C3 IP™** – With advanced calling features, a soft client, unified messaging, mobility call routing and audio and Web conferencing, C3 IP is the ideal solution for SMEs that are looking to upgrade their communications, but do not require collaboration functionality.

Because the Cypress solutions are cloud-based, hosted and managed by Cypress, enterprises can benefit from scalable communications with limited or no capital investment and no need to devote internal resources to managing the solution.

LegalTech New York will be held February 1-3, 2010 at the Hilton New York hotel. Legal professionals, CIOs and IT decision makers interested in learning more about Cypress' voice, data and Internet solutions should stop by booth #1301.

About Cypress Communications

For over 25 years, Cypress Communications has been helping small-to-medium enterprises (SMEs) connect, communicate, collaborate and continue[®] with a range of fully hosted and managed voice, data and Internet solutions. Beginning in 2006, Cypress revolutionized the communications industry with its hosted VoIP and [hosted unified communications](#) solution, [C4 IP](#), making it easy for SMEs to take advantage of productivity-enhancing technology such as integrated [audio and Web conferencing](#), multimedia collaboration tools, [presence](#), chat, Microsoft[®] [Outlook integration](#), and more. As a Deloitte Fast 50 and Fast 500 award recipient, Cypress is recognized as one of the fastest growing telecommunication companies in North America. In 2008, the company was also named one of Atlanta's Best Places to Work. Cypress' hosted unified communications solution has received numerous awards and accolades, with 19 awards for excellence and innovation to date. The company's Web address is www.cypresscom.net.
