

# **TurboBridge Licenses VoIP Conferencing Solution to Broadvox**

*Adding a comprehensive, business-oriented feature-set.*

**Bethesda, Maryland**, January 10, 2012- Broadvox, a hosted unified communications provider, has licensed TurboBridge's High Definition audio conferencing system, providing Broadvox customers with new conference calling features and enhanced audio performance.

With TurboBridge, Broadvox augments its conference calling capabilities with advanced features including a live online conference dashboard, flexible passcode administration, reservationless conferences and additional host controls. TurboBridge also enables high definition audio quality and support for multiple participant access methods and direct IP connections.

"By plugging in TurboBridge, we've expanded our audio conferencing capabilities for our enterprise customers," said Frank Grillo, Executive Vice President of Applications, Implementation and Support at Broadvox. "TurboBridge offers a cost-effective, off-the-shelf system that we could rapidly integrate into our product portfolio, helping our customers to better connect, communicate and collaborate."

"We are excited to license TurboBridge's powerful audio conferencing technology to a long-standing VoIP leader and growing unified communications provider like Broadvox," said Chris Koehncke, President of TurboBridge.

## **About Broadvox**

Broadvox is a worldwide leader in providing integrated managed VoIP services and hosted Unified Communications to SMB, Enterprise, and carrier customers. It has deployed one of the largest full-featured global VoIP networks and is trusted by over 300 telecommunications carriers, ASPs, ISPs and more than 10,000 businesses to transport over 15 billion minutes of voice and data traffic annually. The Network Operations Centers, operating 24x7x365, provide the reliability, security and quality of service required by the world's most discriminating customers. Broadvox merged with Cypress Communications in early 2011. Cypress' 25-year legacy, along with award-winning hosted UC and other managed services and a national, redundant IP network have been merged into the Broadvox portfolio. Broadvox offers SIP trunking, SIP origination and termination services, broadband, web hosting and award-winning fully managed cloud communications and collaboration solutions. Broadvox is headquartered in Dallas, Texas. For more information, visit [www.broadvox.com](http://www.broadvox.com).

## **About TurboBridge**

Leveraging its patent-pending TurboSound™ technology, TurboBridge is delivering a game-changing experience in telephone audio conferencing; reaching new levels of quality, convenience and affordability. TurboBridge offers fixed-price, HD-quality audio conferencing, adding the convenience of using the Internet to connect to your conference calls.
