

YOUR COMMUNICATIONS ARE MORE SECURE UNDER A CYPRESS.

Financial services companies have to be available for clients 24/7 – no matter what. Outsourcing to Cypress can be your ultimate communications disaster recovery plan. Instead of a traditional PBX, Cypress' Voice over IP technology gives you the ability to reroute communications and stay up and running through practically anything. And you'll enjoy the added productivity benefits of features such as Microsoft Outlook® integration, video conferencing and real-time collaboration. With 20 years of experience and 6,500 customers coast to coast, Cypress makes all that cutting-edge technology virtually risk-free, all without any capital investment. Find out more at www.cypresscom.net.
